# Online Library System Part 2 - Individual

Name: Omkar Dattatraya Pawar

**Project:** Online Library System

#### **Requirements:**

Use case documents, Activity and Sequence Diagrams are covered for requirement UR-014.

ID	Requirement	Topic Area	Actor	Priority
UR-014	As a library staff, I want dashboard so that I can add and remove books in circulation.	Dashboard	Staff	High

This requirement basically takes care of the adding and removing book to the system. This will be required by a staff member only and he/she will complete this tasks using the Add Book and Remove Book options available on his/her dashboard.

Additionally, only use case documents are available for following requirements:

ID	Requirement	Topic Area	Actor	Priority
UR-003	As a customer, I want to update my profile so that i can provide my details	Account	Customer	Medium
UR-012	As a library staff, I want to be able to login, so that I can access my account.	Account	Staff	High
UR-015	As a library staff, I want to able to manage customer accounts so that I block/unblock accounts when needed	Account	Staff	Medium
UR-018	As an administrator, I want to able to manage user accounts so that I can block/unblock users as needed.	Account	Admin	High
UR-019	As a library staff, I want an update book functionality so that I can update the details of book in circulation.	Dashboard	Staff	High

#### **Use Case Documents**

A: Use case documents for use cases described in Activity Diagram and Sequence Diagram

Use Case	e ID:	UC-014a		
Use Case Name:		Add book to the system.		
Description:		Staff member can add books to the system by providing following		
		book details: Title, Author, ISBN, Genre and Book ID.		
Actors:	Staf	f Member		
Pre-	Staf	f has logged into the system and	has the details for the book he wants	
conditions:	to a	dd to the system.		
Post-	A ne	w book is added to the system a	and details are stored for that book.	
conditions:				
Frequency	Wee	ekly.		
of Use:				
Flow of		Actor Action	System Response	
Events:	1.	Selects Add Book option	A page for filling up book details is	
			displayed on the screen.	
	2.	Enters details such as Book		
		title, Author, ISBN, Genre		
		and Book ID		
	3.	Clicks Add/Save button	Validates the details enters for any	
			incorrect format and displays	
			appropriate error messages if	
			needed. On successful validation,	
			accepts the data and stores the	
			book to the database and	
Manietien			displays dashboard.	
Variations:	2 10	Contident on the father than the Contident	lling on book datable in discoursed	
Exceptions:		validation is failed, a page for file	ning up book details is displayed	
Developer	agai			
Notes:				

Use Case ID:		UC-014b		
Use Case Name:		Remove book from the system.		
Description:		Staff member can remove the book from system by entering a Book		
		ID.		
Actors:	Staff	Member		
Pre-	Staff	member has the Book ID of the	book to be removed from system.	
conditions:				
Post-		k is removed from the system on	and will not be available to	
conditions:	cust	omers for borrowing.		
Frequency	Wee	kly		
of Use:		T		
Flow of		Actor Action	System Response	
Events:	1.	Selects the Remove book option	Displays the page to enter the Book ID of the book to be removed.	
	2.	Enters the Book ID	Accepts the Book ID and searches book with specified Book ID in database. On successful operation, displays book and asks for confirmation.	
	3.	Responds Yes to confirm the action.	Removes the book from system and displays the dashboard to actor.	
Variations:				
Exceptions:	<ul><li>2. On unsuccessful search, again displays the page to enter the Book ID of book to be removed.</li><li>3. On responding No, displays the dashboard to actor.</li></ul>			
Developer Notes:				

#### B: Use case documents for additional use cases.

Use Case ID:		UC-003		
Use Case Name:		Update Customer Profile		
Description:		A customer can update his/her profile by providing or modifying		
		following details: Name, Last name, Date of birth, Gender, Address,		
		Contact information and preferred Genre.		
Actors:	Cust	omer		
Pre-	Cust	omer has already completed log	in process and dashboard is visible to	
conditions:	custo	omer. Also, Profile option is visib	ole to customer.	
Post-	Cust	omer profile is updated and he/s	she can view updated details in	
conditions:	profi	ile		
Frequency	Rare	ly		
of Use:				
Flow of		Actor Action	System Response	
Events:	1	Clicks on profile option	Displays a page with Customer	
			profile details	
	2	Selects an edit profile option	Displays a page to fill up/modify	
			the customer details	
	3	Enters or modifies the	Filed entries are validated	
		details		
	4	Clicks on Update Profile	Details are updated and stored in	
			database.	
Variations:				
Exceptions:				
Developer				
Notes:				

Use Case ID:		UC-012		
Use Case Name:		Login functionality for staff		
Description:		Staff member can log into the system using his/her username and password.		
Actors:	Staff			
Pre-	Staff	member has the profile created	I and knows the login username and	
conditions:	pass	word. System is running and act	or is on login page.	
Post- conditions:	Staff	member's dashboard page is di	splayed after successful login.	
Frequency of Use:	Daily	,		
Flow of		Actor Action	System Response	
		ACIOI ACIOII	System response	
Events:	1.	Enters username and password.	System Response	
Events:	2.	Enters username and	Validates the field entries and completes authentication process. On successful login, displays the staff member's dashboard.	
Events: Variations:		Enters username and password.	Validates the field entries and completes authentication process. On successful login, displays the staff member's	
	2.	Enters username and password. Selects the login button	Validates the field entries and completes authentication process. On successful login, displays the staff member's	

Use Case	e ID:	UC-015a		
Use Case Name:		Block the Customer account		
Description:		Staff member can block customer accounts if required by providing a		
		customer account.		
Actors:	Staff	member		
Pre-	A cus	stomer profile exists in the syste	m. Staff member has logged into	
conditions:	syste	em and has the customer ID of th	ne customer to be blocked.	
Post-	A cus	stomer account is blocked and h	e/she will not be able to	
conditions:	borr	ow/return books within the syst	em.	
Frequency	Rare	ly		
of Use:				
Flow of		Actor Action	System Response	
Events:	1.	Selects the Block Account	Displays the page to enter the	
		option	Customer Id of the account to be	
			blocked.	
	2.	Enters the Customer Id	Accepts the Customer Id and	
			validates the customer ID and	
			asks for confirmation.	
	3.	Selects yes for confirmation	Customer account is blocked from	
			the system.	
Variations:		•	stem again displays the page to enter	
		customer Id.		
Exceptions:	2. If v	2. If validation fails, system again displays the page to enter the customer Id.
